# Fall 2022-New Inclusive Access Adoptions

The book fee proposed for these courses would provide digital delivery of required instructional materials for their course, on or before the first day of class. This is in place of the cost of a physical textbook. These classes already include web-based materials, this process would minimize the steps needed to access, while providing substantial savings to the student. The process will include an option for students to opt-out and acquire materials on their own, as well as acquire a paper copy of the textbook.

The proposed fee increases are aimed at off-setting the recent increases in supplies and delivery charges; approximately 15% in the last two years. Prior to this point, lab fees have not been adjusted for approximately 10 years.

# **ECHOCARDIOGRAPHY FEES**

COURSE	TITLE	CURRENT FEE 2021-22	PROPOSED FEE 2022-23
ECG 230	ECHO CERTIFICATION REVIEW	\$350	\$365

The proposed fee increase is a result of the vendor increasing the fee for the Cardiovascular Credentialing International Board Exam.

CHM 203	Organic Chemistry I	\$30	\$45
CHM 204	Organic Chemistry II	\$30	\$45
CHM 205	Intro to Organic and Biochemistry	\$30	\$45

The proposed fee increases are aimed at offsetting the recent increases in the cost of materials and delivery charges over the last two years. For the general physical science course, the lab fees have not kept pace with cost increases over the last decade. In addition, due to health and safety, the chemistry classes have moved to add the cost of individual lab goggles (\$5) so students no longer have to share.

#### Request to increase fees for Nursing 2022

Current fees for the ADN program at South Suburban College covers the cost of the ATI assessments and resources for students that support the curriculum, and fees to take the NCLEX licensure exam for the students. The total for the 7 courses totals \$1,750. Our current fees and proposed increase position us as one of the lowest fee structures for nursing programs in the area. This proposal to change our ATI assessment program to ATI complete partnership will enhance the resources for the students improving the retention and success rate of the students and provide support for the program in our ACEN accreditation journey. Their products will assist our students and faculty with ongoing assessment and remediation during the nursing program, in preparation for NCLEX-RN licensure exams and the data analysis needed for the accreditation.

These assessment tools will allow for both formative and summative assessments, data analysis and curriculum development and revision needed for systematic evaluation of the program. This is key for the accreditation process for the nursing program. It also helps support us with some faculty development and curriculum development and review to ensure our program is up to date with nursing education standards.

As you are aware, the books for nursing are expensive and many students do not purchase some of the needed resources. These packages will provide many resources that reduce the book costs and insure all the students can equally participate in the course activities. The cost for the nursing lab kit, and the nursing pin, NCLEX will be included in the fees for the courses.

In addition, this change to ATI complete partnership locks our pricing for 3 years, reduces book costs and other resources currently used by the students.

The college will continue to offset the cost per student using grant funds.
