Note: This report is a course enrollment summary by department and division. This is NOT equivalent to a program report which counts one unique program per student. Rather, this report summarizes all course registration activity across the college in order to provide total credit hours generated among departments and divisions.

FTE—full-time equivalency is a federal calculation of credit hour generation whereby 1.0 FTE = 15 credit hours. This should not be considered equivalent to headcount totals or comparisons involving full-time students (standard definition of a full-time student for financial aid calculations is 12 or more credit hours).
